

DARSHAN PATIL

Software Engineer (Fresher) | JavaScript | React.js | Node.js | Python
patildarshan9483@gmail.com | +91-8088822575 | [LinkedIn Profile](#) | [GitHub Profile](#)

PROFESSIONAL SUMMARY

Software Engineer (Fresher) and BE Computer Science graduate (CGPA: 7.6/10, June 2026) with hands-on full-stack development experience across two internships and four end-to-end software projects. Proficient in JavaScript, React.js, Next.js, Node.js, Express.js, and Python, with practical experience in REST API design and development, real-time application development using WebSockets, and applied machine learning using OpenCV. Skilled in relational and non-relational database design using MongoDB, Mongoose, and SQL. Experienced in Agile software development methodology, version control using Git and GitHub, debugging, and cross-functional team collaboration. Seeking an entry-level Software Engineer / Software Developer position to apply strong programming fundamentals and full-stack development skills.

EDUCATION

Bachelor of Engineering (BE), Computer Science and Engineering

Dec 2022 – Jun 2026

BLDEA's V P Dr PG Halakatti College of Engineering & Technology

- CGPA: 7.6 / 10
- Relevant Coursework: Data Structures and Algorithms (DSA), Database Management Systems (DBMS), Operating Systems, Computer Networks, Machine Learning

PROFESSIONAL EXPERIENCE

Full Stack Web Development Intern — Suprmentr

Feb 2026 – May 2026

- Engineered full-stack features across frontend, backend, and database layers, contributing directly to feature delivery in a production-style development environment
- Designed and integrated REST APIs to enable reliable, real-time data flow between client and server, reducing data inconsistency issues
- Partnered with mentors and stakeholders to convert functional requirements into shipped, working features within tight delivery deadlines

Web Development Intern — LaunchEd Global

Feb 2025 – Mar 2025

- Delivered responsive, cross-device web pages using HTML5, CSS3, JavaScript, and React.js, improving consistency of user experience across platforms
- Engineered reusable, modular frontend components integrated with REST APIs, reducing duplicate code and streamlining frontend-backend communication
- Diagnosed and resolved UI defects through systematic root-cause analysis, improving application stability and cross-browser performance
- Practiced disciplined version control using Git and GitHub within an Agile team, supporting smooth, conflict-free collaborative development

TECHNICAL SKILLS

Programming Languages: JavaScript, Python, Java, C

Frontend Development: React.js, Next.js, HTML5, CSS3, Responsive Web Design

Backend Development: Node.js, Express.js, REST API Development, WebSockets

Databases: MongoDB, Mongoose, SQL

AI / Data Tools: Python, OpenCV, Pandas, Machine Learning Fundamentals

Development Tools & Platforms: Git, GitHub, Linux, VS Code, MS Excel

PROJECTS

Real-Time Chat Application

May 2026

- Engineered a real-time messaging application using Next.js, Node.js, and WebSockets, delivering instant message synchronization across multiple concurrent users with minimal latency
- Architected the MongoDB schema using Mongoose with built-in data validation, ensuring consistent and reliable message persistence

VisionAttend: Automated Face Recognition Attendance Tracking System

Jan 2026

- Designed and developed an automated attendance tracking system using face detection and face recognition algorithms
- Implemented the computer vision recognition pipeline using Python and OpenCV, validating system accuracy against real-world test data to reduce manual attendance errors

Book-Finder: Full Stack Book Search Platform

Aug 2025

- Developed a full-stack web application enabling users to search books by title and author using third-party API integration
- Designed a clean, responsive user interface (UI) optimized for non-technical end users

Feedback System: Web-Based Feedback Collection Platform

Jan 2025

- Developed a web-based feedback collection system using HTML5, CSS3, JavaScript, and React.js
- Designed and implemented backend REST APIs with database integration for structured feedback data management

CERTIFICATIONS

- Web Development Certification — LaunchEd Global (March 2025)
- GitHub Copilot for Beginners: Write Software with AI — Certification (September 2025)
- Data Analytics Certification — ESS (March 2025)

AWARDS & ACHIEVEMENTS

- Merit Certificate, Naukri Campus Young Turks 2025 — scored 95.80 percentile; ranked among the top 30,000 of over 6,00,000 (6 lakh+) participating students nationally
- National Science Day Poster Presentation Participant, College Level
- TCS CodeVita Season 13 Participant
